 9" - 1+5 micron

Kit gruppo filtri con accessori e manometro 2x 20" 3/4
 5+1 micron IN 3/4F - OUT 3/4F
 2x 20"x3/4 Filters KIT with pressure gauge
 5+1 micron - IN 3/4F - OUT 3/4F

Cod.
TC520020

Professional
 20" - 1+5 micron

- Tutti i filtri a bassa pressione sono dotati di cartucce PP a norme FDA e DM 174/2004
- Temperatura min/max di esercizio: 0°C / 60°C
- All low pressure filters are equipped with FDA approved PP cartridges
- Min/Max operating temperature: 0°C / 60°C

FILTRO ANTIBATTERICO 0.005 MICRON

Questa cartuccia ultrafiltrante assicura una protezione completa contro batteri, virus ed endotossine contenute nell'acqua, impedendo il contrarre malattie come Legionella e Salmonella.

Grazie alla ultrafiltrazione delle fibre a membrana cava sviluppate per applicazioni mediche, impedisce a qualsiasi sostanza con peso molecolare superiore ai 15K daltons di penetrare attraverso le membrane. Batteri, virus ed endotossine non riescono ad oltrepassare questa barriera grazie a due meccanismi: uno basato sulla funzione di setaccio dei pori (grazie alla configurazione spugnosa) ed uno basato sulla capacità di assorbimento propria delle membrane.

Nota: è obbligatoria la prefiltrazione a 1 micron.

ANTIBACTERIAL 0.005 MICRON FILTER CARTRIDGE

This ultrafilter ensure a complete protection against bacteria, virus and endotoxins in the water, avoiding the contraction of diseases like Legionella and Salmonella.

Thanks to the hollow fiber ultrafiltration membrane developed for medical applications, it prevents all substances with a molecular weight higher than 15K daltons crossing over the membrane. Bacteria, viruses and endotoxins cannot pass the membrane barrier due to two mechanisms: one based on the sieving of the pores thanks to the sponge-like configuration and one on the adsorption capability of the membrane itself.

Note: 1 microns prefiltration is mandatory.

Batteri/Bacteria (P.Diminuta)	10 Log
Virus (PhiX-174)	8 Log
Endotossine/Endotoxins (EU/ml)	5 Log

Retention capacity - Riduzione Log

100% A PROVA DI LEGIONELLA

- Protezione completa contro batteri, virus, endotossine
- Testato clinicamente dal Dipartimento di Igiene Universitario
- Garantisce protezione durevole anche con portate elevate
- Facile installazione
- Protezione totale: filtrazione a 0.005 micron

100% LEGIONELLA-PROOF

- Whole protection against bacteria, virus, endotoxins in the water
- Clinically tested by Hygiene Department of Italian University
- Guarantees long-lasting protection also with high flows
- Easy set-up
- Total protection: filtration 0.005 micron
