It's time to show a little attitude! You are the CEO of a company and you have just received a very important email. It seems that your company has failed a big audit. You are now forced to do a total failure of your work and the workplace, as your workers are reporting for lunch right after seeing your failure. It is your job to solve the problem before time runs out. Since you are a genius, it shouldn't take too long to do. However, there are no exact time limits to solve the problem, so you have all the time you want. You don't have to hurry, because you will have plenty of time to check your work as you are moving along. If you need extra time to solve the problem, you will get a bigger bonus. You are already paid very well, but now you can add a big bonus, as you have solved the problem perfectly, and you just have to see the results. You really have worked well, and you deserve this bonus. You will not regret it. From your stock portfolio, you can choose how much you want to make a transfer, and the number of transfer it needs to be. Can you solve the problem before time runs out? Do not start the process before the time runs out. Time will go by and your workers will be hungry. #4. Watch Mirrors Your Player will take part in the following round: * Meet 10 different people from a certain social circle, and try to guess whether they know each other or not * Find a qualified person * Discuss a sensitive topic * Connect the dots with a 2D puzzle A puzzle is an individual crossword or sudoku puzzle.
