Serial.org.za.com/microsoft-toolkit-2-10-7-official-microsoft-toolkit-official-microsoft-toolkit-official-tutorials-serial-key-076Q: How to submit list of data to ajax form without multiselect? I have this list of data which is coming from database. {'id': 1,'message': 'hello'} {'id': 2,'message': 'world'} How could I send this list data to the ajax form without using checkbox in the form? A: AJAX doesn't require you to use HTML form elements in order to submit data. You can still use jQuery or another library to submit the data. You'll want to use jQuery's serialize() method to turn your data into a string of key/value pairs. \$.post("", \$("#myForm").serialize()); After that has submitted, you can start retrieving and processing the server-side data accordingly. Also, note that uncheckboxes are not valid in HTML. In HTML, only input types are valid, not select. If you want to change the user's selection, use JavaScript. /* * Copyright (C) 2015 The Android Open Source Project * * Licensed under the Apache License, Version 2.0 (the "License"); * you may not use this file except in compliance with the License. * You may obtain a copy of the License at * * * * Unless required by applicable law or agreed to in writing, software * distributed under the License is distributed on an "AS IS" BASIS, * WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied. * See the License for the specific language governing permissions and * limitations under the License. */ package org.jetbrains.android.dom.editpolicies; import com.intellij.openapi.util.Comparing; import org.jetbrains.annotations.NotNull; import org.jetbrains.annotations.Nullable; import
